**RAPID ALLRISK PLANT COVER PLAN**

Aerial Platforms are expensive to repair or replace. Through Norwich Union we provide excellent cover against total loss including fire, theft and accidental damage. If you have your own Contractors Plant Insurance then please indicate below, please note that if you select this option we require a copy of your 'hired in plant' insurance policy to be sent with the return of the completed form.

Own 'Hired In Plant' Insurance then please tick here:

Alternatively, if you would like to take advantage of the Rapid Damage Waiver Scheme then please tick here:

**DISCLAIMER**

This office utilises a third party credit reference agency for credit assessment purposes. In submitting a request for this office to open a credit account, you are hereby providing us with your consent to carry out any credit reference searches that we deem necessary to support your application. These searches will be taken for credit information purposes only and may be carried out on both your company and its principals. The credit reference agency may also keep a record of our enquiry, and share that information with other businesses that may also make enquires about the company and its principals. This does not affect your statutory rights. You are also agreeing to abide by the Terms and Conditions of this office, in the absence of any written authority, strictly from this office, to the contrary. Our standard payment terms are 30 days from month end unless otherwise agreed in writing between both parties.

I confirm I have read and accept the CPA Model Conditions for the Hiring of Plant (with effect from July 2011) as amended from time to time by ticking this box (when this form is returned by email):  or alternatively sign below (when this form is returned by fax):

Rapid Platforms Ltd, London Road, Spellbrook, Bishop's Stortford,  
 Hertfordshire, CM23 4AU - Tel 01279 501501  
 Company Registration Number 3539352

## RAPID ALLRISK & DAMAGE WAIVER

	Damage Waiver	RAPID ALLRISK
<b>Why take?</b>	Parts are expensive e.g. split tyre £375, foam filling £250, steering assembly damage £375 - £500. Most 'Hired-in Plant' insurance covers total loss and not accidental damage.	You're expected to return hire equipment in the condition in which it was received. RAPID ALLRISK takes the worry out of using expensive equipment. Replacing a stolen platform can cost you over one hundred times its weekly hire rate. In the case of damage, replacement parts are often imported and very costly.
<b>What does it cover?</b>	Accidental damage caused by your operatives during normal (or agreed) working hours each working day within the UK during the hire period: also AFI's loss of hire income during downtime (Subject to exclusions listed below).	Damage Waiver plus Accidental Loss, Destruction or Damage, for 24 hours each day within the UK during the hire period; also Rapid's loss of hire income during downtime (Subject to exclusions listed below).
<b>Is there an excess?</b>	There is no excess in the case of repairable accidental damage. In the case of total loss, £1,000 or 10% of the new replacement value of the equipment, whichever is greater.	None in the case of repairable accidental damage. £1,000 in the case of total loss.
<b>What are the exclusions?</b>	Third party claims, paint spillage and over-spray, damage caused by non-observance of daily maintenance <sup>1</sup> , inadequate security <sup>2</sup> , use by untrained operators <sup>3</sup> , or any gross negligence <sup>4</sup> .	Theft by hirer, third party claims, paint spillage and over-spray, damage caused by non-observance of daily maintenance <sup>1</sup> , inadequate security <sup>2</sup> , use by untrained operators <sup>3</sup> , and any gross negligence <sup>4</sup> .
<b>What does it cost?</b>	Only 10% of your hire charge, billed on the hire invoice.	Only 20% of your hire charge, billed on the hire invoice.
<b>How do I register?</b>	Simply tick the box on the first page of the application form.	You need to do nothing further; all accounts receive RAPID ALLRISK unless you confirm that you have your own 'hired -in plant' insurance or tick the box on the first page of the application form.

### Important

You will continue to be bound by the terms and conditions of the Construction Plant Hire Association's Model Conditions for the Hiring of Plant (With effect from July 2011) as amended from time to time

### Definitions

- (1) Daily and weekly equipment checks on batteries etc.
- (2) Safe Storing of the equipment when not in use
- (3) Trained operators being defined as suitably qualified operators to IPAF/CITB standards.

### (4) Exclusions

- (i) Damage resulting from negligence of hirer's operators/ Employees/sub-contractors (damage waiver only)
- (ii) Damage caused by over loading
- (iii) Damage whilst using the machine other than for its designed purpose
- (iv) Damage by fire when hot work is being undertaken
- (v) Damage due to corrosion by chemicals
- (vi) Damage whilst it is on hire/loan to/ or used by any other party
- (vii) Wilful damage

We confirm that we have Insurance cover that protects us against loss or damage to the hired out plant and equipment. We will arrange for you to be given an interest in the relevant policy. Although you will not be a party to our Insurance policy and will not have any direct rights or action against our Insurer's, our Insurer's have nevertheless agreed with us that they will not exercise any subrogation rights that they may have against you to the extent that you have, as stipulated in the Rapid 'All Risks' Plant Cover Plan, been given an interest in the policy by agreement with us.

## TRAINING - OPERATOR TRAINING & FAMILIARISATION: YOUR LEGAL OBLIGATIONS

**It is the employer's responsibility to ensure that all operators using access equipment are adequately trained and familiarised to comply with current Health & Safety Legislation.**

### 1. TRAINING

Our IPAF and other training courses include classroom theory, followed by a written test paper, together with practical sessions and assessment.

### 2. FAMILIARISATION

Those who intend to use Mobile Elevating Working Platforms ("MEWP") with characteristics of weight, height, width, length or complexity which differ significantly to the training they have received should ensure that they receive a familiarisation to cover the differences. Machine specific familiarisation should follow on from basic training and cover: manufacturer's instructions and warnings, features of the specific model, control functions, safety devices and emergency lowering procedures. All of the above are to be found in the information supplied with the machine.

Familiarisation is available from Rapid (subject to charge) or alternatively you may wish to consider having a qualified IPAF demonstrator(s) within your workforce to improve safety and ensure that operators are fully aware of different machine safety systems and emergency lowering procedures.

For further information Contact our Training division on 01279 501501 for details and costs

## SAFETY HARNESES

IPAF strongly recommends that a full body harness with adjustable lanyard (used to provide work restraint and adjusted to be as short as possible) is used when working from a Boom type MEWP.

Contact our Training division on 01279 501501 for details and costs
